CAREER PROFILE

Perth-based designer with a **Master of Design (Monash)** and **4+ years** across UX/UI, graphic design and software engineering. I design end to end, from **user research and journey mapping** to **Figma prototypes, polished UI and design systems**, and I create **brand identities, packaging, print and social content** for cafes and small businesses. My engineering background means I work closely with developers, and I'm quick to learn, organised and easy to work with.

PROFESSIONAL EXPERIENCE

07/2026 - Present

UI/UX Designer

BetaBuilders, Perth, Australia (Remote, part-time)

- Run design workshops and critiques with a team of 15 to 30 designers and developers, giving clear, structured feedback.
- Design on-brand graphics, presentations and social content, and organise events, meetups and workshops.
- Write Medium articles on human-centred design and responsible AI-assisted workflows.

2023 - Present

Freelance Graphic Designer

Cafes and small businesses

- Create logos and brand identities, then apply them across menus, posters, flyers, packaging and labels.
- Produce social media posts and reels, working directly with owners to turn their products into compelling visuals.
- Design print-ready artwork in Illustrator, InDesign and Photoshop, keeping every piece consistent with the brand.

02/2026 - 05/2026

Sessional Academic

Monash University, Melbourne, Australia

- Taught a postgraduate unit on prototyping with AI to 50+ students, running critique sessions and explaining design decisions clearly to people from different backgrounds.

06/2024 - 01/2026

Web Designer

ZevSmart Pvt Ltd, Bengaluru, India

- Designed 3+ client websites end to end, translating business goals and user needs into information architecture, user flows, wireframes, prototypes and high-fidelity designs.
- Built and maintained a component-based design system for consistent, accessible, responsive experiences across projects.
- Presented design rationale to clients and partnered with developers in agile delivery (HTML5, CSS3, JavaScript, Webflow), resolving issues during QA.

09/2023 - 01/2024

UI/UX Designer

KVN Dreams Technologies Pvt Ltd, India

- Planned and ran usability testing on web and mobile products, iterating flows based on user feedback to improve navigation, accessibility and task completion.

2023

Freelance UI/UX Designer

PhonePe (Digital Payments, Fintech), India

- Designed end-to-end flows across payments and transfers, bill payments and merchant tools for a leading regulated digital payments app, turning customer insights into user flows, prototypes and polished UI.
- Designed login, PIN and KYC identity verification flows that kept security steps clear and trustworthy for customers.
- Ran usability testing with 20+ customers and supported QA, using their feedback to simplify complex journeys.

09/2021 - 10/2022

Associate Software Engineer
Mphasis Technologies Pvt Ltd, India

- Worked in cross-functional enterprise agile teams alongside developers and testers, gaining a solid understanding of technical constraints, quality and secure delivery, and noticing usability issues during testing that led me into product design.

SELECTED DIGITAL EXPERIENCE PROJECTS

Brand Project

Rainbow Spirit Festival - Brand Identity & Website
Logo | Brand Guidelines | Responsive Web Design

- Created a full brand identity (logo, palette, type, brand elements and guidelines) and carried it across posters, tickets, merchandise and a responsive website, keeping the digital experience true to the brand.

Product Project

MOHO - Museum Pre-Order and Engagement Platform
Journey Mapping | Responsive Web | Accessibility

- Designed and tested an accessible, responsive pre-order platform end to end, from problem framing and journey mapping to prototyping, refining navigation and checkout through iterative usability testing.

Master's Capstone

MADA NOW - Reimagine Digital Experience
Problem Framing | Information Architecture | Usability Testing

- Restructured a showcase platform's submission flow and information architecture, testing and refining the visual design for clarity and discoverability. Highly Commended, MADA Now Showcase, Monash University.

EDUCATION

2024 - 2026

Master of Design (Interaction Design)
Monash University, Melbourne, Australia

2017 - 2021

B.Tech - Computer Science (IoT)
Jain University, Bengaluru, India

PROFESSIONAL TRAINING AND CERTIFICATIONS

2024 **Webflow for Designers Certification - LottieFiles**

2024 **Adobe Certified Professional - UX Design**

2023 **UI/UX Design Bootcamp - DesignBoat UI/UX School**

2022 **Google UX Design Professional Certificate**
